

EAGLE GREEN PE™

RECYCLED CONTENT, LOWER COSTS, HIGHER PERFORMANCE

AVAILABLE IN 4"-60". MEETS ASTM 2648.
GASKETS MEET ASTM F477. JOINTS MEET ASTM D3212.

Better Engineered for a More Durable Joint

Eagle Green PE (Dual Wall) from JM Eagle is the first choice in gravity flow drainage applications.

- Features a dual-crown corrugated exterior for greater pipe stiffness values and a hydraulically smooth interior for maximum efficiency.
- Boasts superior strength-to-weight ratio and flexible conduit design.
- Supports H-25 live loads with a minimum cover of 1 foot, while allowing for cover heights of 100 feet.
- Comes available with a full line of standard and custom fittings.
